1. Product overview

Fig.1. FPV camera P6 Pro

The Pilotix P6 Pro is a high-performance FPV camera designed for professional drone pilots. Featuring advanced image processing and wide dynamic range, it delivers sharp, clear footage in any lighting conditions.

2. Wiring connection

Connect the 2-pin cable between the FPV camera and the control board.

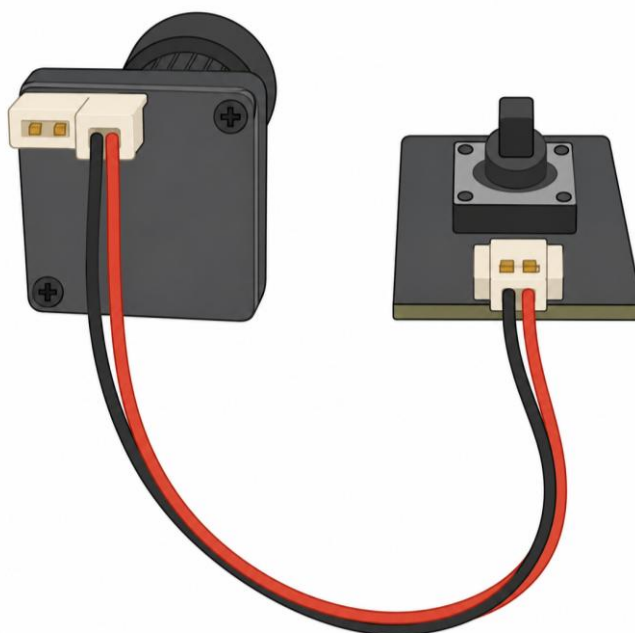

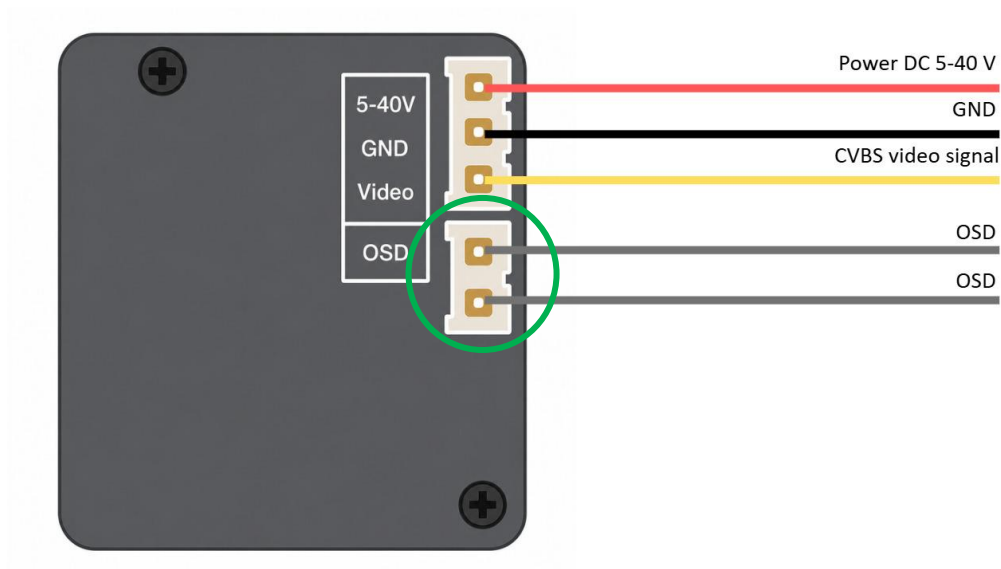

Fig.2. OSD joystick connection

Connect the 3-pin cable between the FPV camera and the display.

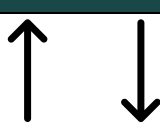

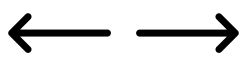

3. Menu controls

Short press the joystick to open the main menu.

*The default interface language is English.
